## Description

### DAY 1

Our international study tour starts in Linz, the capital city of Upper Austria.

On day one, we will meet at 8 am to start with a **Welcome session** to get to know all the participants. Afterwards we will get a tour at the **Biomass power plant** of Linz.

After lunch, we will make our way by public transport to WoodKplus.

**WoodKplus** is a leading research institute in the area wood and wood-related renewable resources in Europe. The competences are materials research and process technology along the complete value chain – from raw material to finished products. They develop methods and basics and perform applied research on the economy-science interface in order to enable resource-efficient management in the circular bioeconomy.

**City Tour Linz:** Guided walking tour through the heart of Linz.

Before dinner we will get a presentation and tasting of HochBROTzartig.

**HochBROTzartig** was founded by a bakery who uses left-over bread to make sprits out of it. We will have dinner in Linz.

### DAY 2

After individual breakfasts, we will meet to go on a bus trip.

Our first stop is not far from Linz:

**Oilmill Raab** is an organic farm and an oil mill that produces high quality oils like: sunflower seed, poppy seed, soybean, pumpkin seed, walnut and many more. They took part in a project where their oil press cake was used to extract proteins that were used by a cosmetic company.

**Eggenberg Brewery**

We will get a tour at the brewery and learn about the use of the spent grains as feed and will get a taste of what else you can use it for. We will have lunch at the brewery.

**Lenzing AG** is the world leading fibre producer for cellulose fibres.

We will get at tour there and afterwards we will take the bus to Straubing.

Dinner will be in Straubing.

### DAY 3

After breakfast at the hotel we will take the bus to a fish leather manufacture:

**Anatol Donkan** has a manufacture where he is tanning leather out of fish hide and uses this material for making crafts like purses, belts, and art projects.

Before lunch we are aiming to get a tour at the local composting plant (tbc).

After Lunch we will get a tour at BioCampus Straubing.

**BioCampus Straubing GmbH** is a sector-focused location development and business promotion company. Business development instruments are used to support start-ups, relocations and the growth of existing companies in the Straubing region that are involved in the material or energy utilisation of biomass.

Our **Closing session** will also be at BioCampus Straubing.

You can either choose to organize your individual **departure** from Straubing or take our tour bus back to Linz.
