

## Invitation

### Workshop – Wastewater as an Energy Source for Companies

- 📅 When: 20.01.2026, 12:00-16:00 p.m.
- 📍 Where: Bioenergiepark Saerbeck: Im Bioenergiepark 7, 48369 Saerbeck, Germany
- 🗣️ Language: English

Join us to discover how wastewater can be used as a sustainable energy source by companies! As part of the CREATE Interreg VI project, we are offering an exciting combination of an interactive workshop, insights from research projects, and a guided tour of the Saerbeck Bioenergy Park. You will see an industrial-scale AEM electrolyser, an experimental biogas plant and wastewater treatment systems, among other things.

#### Program-Highlights:

- ➡ Welcome & Introduction
- ➡ Insights from Research:
  - Fundamentals of wastewater treatment and energy recovery
  - Practical examples from the CREATE project (FH Münster)
  - CREATE project results - The future of anaerobic wastewater treatment (CEW)
- ➡ Workshop:
  - Work together in small groups to identify challenges and possible solutions
- ➡ Guided Tour:
  - Guided tour of the Saerbeck Bioenergy Park
- ➡ Interested? Register by email to: [create-interreg@fh-muenster.de](mailto:create-interreg@fh-muenster.de) (Deadline 20.12.2025)
